SKILLS

- **Languages:** Python, JavaScript, C, C ++
- **Technologies:** HTML, CSS, Java Script
- **Databases/Tools:** PostgreSQL, Git, GitHub, Figma, VS Code
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

PROJECTS

iCAR – Smart Electricity Saving & Security System

Aug 2025 - Dec 2025

- Designed a system focused on saving electricity while improving security.
- Implemented unauthorized-entry detection and SMS alerts, and notifying owners within seconds.
- Components used: Arduino Uno, keypad, and GSM module.
- Prepared the hardware model and developed the required code.

Student Management System

June 2026 – July 2026

- Developed a simple Student Management System to store, update, search, and manage student records.
- Implemented features such as adding, editing, deleting, and viewing student information.
- Used Python and PostgreSQL for application logic and database management.
- Applied CRUD operations, SQL queries, and basic data validation to build a practical database-driven application.

HACKATHON & OPEN SOURCE

GirlScript Summer of Code (GSSoC)

Open Source Contributor | 2026

- Contributed to open-source projects through GitHub and collaborative development workflows.
- Gained practical experience with version control, issue-based development, and collaborative software development.

TRAINING

- Python Programming — Completed Python-focused learning/coursework covering programming fundamentals and problem solving.
- C Programming — Completed training covering C programming fundamentals, control structures, functions, arrays, and problem solving.
- Time Management — Completed professional development training focused on productivity and effective time management.
- Database Management Systems (DBMS) — Completed foundational training covering database concepts, SQL queries, relational databases, and database management.

CERTIFICATES

- **Big Data** --- Infosys
- **AI for Beginners** — Infosys
- **Computer Programming** – iamneo (An NIIT Venture)

ACHIEVEMENTS

- **Completed 100+ hours of hands-on learning in C programming**, strengthening programming fundamentals and problem-solving skills.
- **Completed 100+ hours of hands-on learning in Python**, with focus on programming fundamentals and practical problem solving.
- Continuously improving coding proficiency through hands-on programming practice..

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.11**

Phagwara, Punjab

Aug 2025 - Present

ARYAMAN PUBLIC School | CBSE

Higher Secondary Education; **Percentage: 72%**

Najafgarh, Delhi

May 2023 - Mar 2025

VED Model Sr Sec School | CBSE

Secondary Education; **Percentage: 89%**

Rohtak, Haryana

Jun 2022 - Mar 2023
